

WSSA Coastal Manager's Meeting

April 24, 2018

Bill Walsh, Tony Spataro, Alan Gerberg, Jerry Kaplan, Darrell Davies, and Tim Alexander met today to thank Bill Walsh for stepping up to the plate to help us until permanent assignments to the Manager and Asst Manager of the Infinity Team can be made. Bill and Freddie will Act until then. On June 8th we are going to review and balance teams ,to a minimal extent, so we will discuss their status at that time as well.

Managers all have emergency lists and were reminded to reread the Manual. I have asked the BOD to ensure all electronic messages concerning the League and Infinity be cc'd to Bill ,as Freddie is not computer ready.

We discussed rain out notifications , clarified the 1 and 1 rule in Coastal, and the run through second and third rule. No decision on the run through as that issue is equally divided in opinion. It's on a trial until mid season.

The most important agreement and understanding reached was that henceforth, ONLY rostered players can participate in a game. All others can attend the pre-game practice or Tony Spataro's ad hoc practice games. Tony will notify them.

Our 15 player rosters and full participation does not permit additional people to play without a depriving impact on active roster players.
